6+ years of software engineering experience, including 5 years at Accenture delivering production systems for Merz Pharma, Medtronic and Rabobank. Specialized in enterprise AI and distributed systems, taking products from idea and architecture through production.

Experience

Software Engineering Associate Manager
October 2021 - Present

Accenture — *Amsterdam, Netherlands*

- Lead the architecture and delivery of production AI platforms, proactively building prototypes and demoing them to prospective clients to identify automation needs and develop new business opportunities.
- Manage three direct reports, providing career guidance through regular 1:1s and conducting performance reviews.

Senior AI Software Engineer | *Merz Pharma*

- **Own end-to-end engineering and delivery of a production multi-agent AI platform**, from workflow discovery and architecture through release.
- **Built the central orchestration layer**, connecting specialized internal agents and Microsoft Copilot agents with RAG, streaming chat, tool calling, Google's Agent2Agent protocol, Azure OpenAI and Azure AI Search.

AI Platforms Engineer | *Medtronic*

- **Built an internal enterprise AI platform for an organization of 50,000+ employees.**
- **Scaled RAG retrieval for knowledge bases with thousands of files**, replacing exact vector search with HNSW indexing to improve retrieval performance.
- **Engineered multi-region Azure OpenAI load balancing and queueing**, plus LangChain-based agents and workflows with evaluations and guardrails.

Software Engineer | *Rabobank*

- **Built identity services used by 2.6M daily app users**, **handling 1,000+ QPS at 99.99% availability**, with single-digit millisecond API latency.
- **Modernized a 20+ year identity and account platform**, using Kotlin, Spring, Kafka, Azure SQL and Cosmos DB.

Full Stack Software Engineer
April 2018 - Dec. 2019

NexoTech — *Mataró, Barcelona (Spain)*

Built a full-stack people-counting web app using React and Java Spring with IoT hardware installed on site. Built a computer vision classification model with PyTorch and Amazon Rekognition for demographic classification, progressing from intern to full-time.

Education

M.Sc. in Computer Science
Sep. 2020 - Oct. 2021

Trinity College Dublin — *Dublin, Ireland*

- Specialized in **AR/VR**, **Machine Learning**, and **Computer Graphics**.

B.Sc. in Computer Engineering and Information Systems
Sep. 2016 - Dec. 2019

Universitat Pompeu Fabra — *Barcelona, Spain*

- Studied a semester abroad at **Ajou University** in *Suwon, South Korea*.

Personal Projects & Open Source

Contributed to **React Native** and other open-source projects. Highlighted projects:

- **Stroop**: AI-assisted Strudel live-coding with Next.js, TypeScript and OpenRouter | stroop.app | GitHub
- **Scandrop MCP**: TypeScript MCP server for reasoning about and interacting with 3D environments | GitHub

Skills

Languages	TypeScript · Python · Java · Kotlin
AI	LLMs · RAG · MCP · LangChain · Azure OpenAI · Azure AI Search · OpenRouter · PyTorch
Software	Next.js · React · Node.js · Spring · Kafka · React Native · Flask
Cloud & Data	Azure · Docker · Cosmos DB · PostgreSQL · Azure DevOps
Spoken Languages	English (Professional) · Spanish (Native) · Catalan (Native) · Dutch (Beginner)
